

YOUR BUSINESS PARTNER FOR

Tech Install Lists
Data Mining
CRM data Cleaning

Is it the right time to clean your CRM data?

Did you know that, for the average business contact database, 65% change job titles, 43% Change phone numbers, and 37% change email address every year? At that rate of change, it's nearly impossible to maintain clean data.

If you have dirty data, BizProspex manually cleans, corrects, and enriches every record. Bizprospex uses the industry's most accurate company and contact data, pulled upon request, manually from over 40,000 sources, to:

- 1. Provide IT intent and Tech Install Data
- 2. Find duplicate records and de-dupe your database
- 3. Add missing data to company and record
- 4. Keep data clean with regularly scheduled updates.

Grow faster with cleaner CRM Data.
